

SHARING IS SMART.

With shared branching, accessing your credit union account is a no-brainer.

Now with thousands of shared branch outlets across the United States, you can take advantage of a variety of services as if you were at your home credit union. It's intelligent banking — deposit, withdraw, or transfer your money wherever you are. You can also pay loan payments or inquire about your balance. Just look for the CU Service Centers Swirl. **It's so smart!**
